**Prepare yourself for the coming Lent together with the
Discalced Carmelites**

Brother Lawrence - Strange enough, he is better known among English-speaking Evangelicals than in his own homeland (France)! However, Brother Lawrence of the Resurrection (1614-1691) lived most of his life in the convent of the Discalced Carmelite Friars in Paris. It was there that he discovered and then taught what he called "the practice of the presence of God."

This humble brother - the community cook and then the sandal-maker - had a great influence during his lifetime and his message has been passed down to us.

He helps us to live our most ordinary everyday life experiences under the gaze of God. Prayer is no longer reduced to specific times. It is our whole existence that becomes a living relationship with the Lord. During this Lent, we will let ourselves be shaped by this Mystery!
